

Copy and paste this to your code

```
3  struct ContentView: View {  
4      var body: some View {  
5          VStack {  
6  
7              }  
8      }  
9  }
```

Then rename the 'ContentView' into your page name

Add text into your newly created view!

```
Text("Hello")
```
