Think, Pair, and Share in breakout room

```swift
Button(action: {
    color = Color.yellow
}, label: {
    Circle()
        .foregroundStyle(Color.yellow)
        .frame(height: 60)
})
```

**Discuss with your partner about
what is it that every line of code do**

Now, make the small circles clickable!
